

CSI Scorecard 2025

Bokiddick Stream

A	Excellent	80-100
B	Good	60-79
C	Fair	40-59
D	Poor	20-39
E	Very Poor	0-19

The overall score for the catchment is based on a year's data collected at all sites in the waterbody. It is calculated from the observations and water quality results obtained during a Westcountry Citizen Science Investigation (CSI) survey. A waterbody must have at least 12 samples taken over the year for it to qualify for a scorecard.

Please note – from 2022 a change to how the PO₄ score is calculated has been implemented.

TDS	Total Dissolved Solids Score	POL	Pollution Score	T	Turbidity Score	PO₄	Phosphate Score
------------	------------------------------	------------	-----------------	----------	-----------------	-----------------------	-----------------
