INTERNAL AUDIT REPORT

TO THE CLERK AND MEMBERS OF **LUXULYAN PARISH COUNCIL**
YEAR ENDED 31ST MARCH 2026

ISSUE DATE: 30/04/2026

Overview of internal audit:

Internal auditing is an independent and objective assurance activity aimed at enhancing the effectiveness of an organisation's operations. It supports the organisation in achieving its objectives by applying a systematic and disciplined approach to the evaluation and improvement of risk management, internal controls, and governance processes.

The scope of the audit encompasses the areas identified in the Internal Audit Report, as included in the Annual Governance & Accountability Return (AGAR).

It should be noted that internal audit assurance can never be absolute. The audit does not involve a detailed examination of all records and transactions and, as such, cannot guarantee that the accounting records are entirely free from fraud or error.

Comments:

I wish to express my sincere thanks to the Clerk, Mrs Christine Wilson, for her assistance and cooperation throughout the course of the audit. It has been a pleasure to conduct this audit.

Internal Audit Report Response Record:

Number	Recommendation	Response
1	It is recommended that the Internal Auditor's Detailed Report be published simultaneously with the AGAR, in accordance with the Practitioners' Guide.	
2	It is recommended that a Data Protection Policy be adopted as required.	

Objectives of the internal audit:

AGAR Certificate reference

A. Appropriate accounting records have been kept throughout the year and periodic bank reconciliations were properly carried out during the year.

Ensure the correct roll forward if the prior year cashbook balances to the new financial year.

All balances have been accurately carried forward.

Check a sample of financial transactions in cashbooks to bank statements etc: the sample size dependent on the size of authority and nature of accounting records maintained.

The accounts are maintained in the Excel Spreadsheets. They were up to date and appeared to be free from material errors. A sample of payments was tested to establish whether the required controls had been applied and VAT had been accurately recorded.

Ensure the bank reconciliations are prepared routinely, are subject to independent scrutiny and signed off by members.

Bank reconciliations have been produced routinely throughout the year and have been reviewed/checked by a member.

Verify the accuracy of the year-end bank reconciliation detail and ensure accurate disclosure of the combined cash and bank balances in the AGAR (section 2, line 8).

The year-end reconciliation was found to be accurate, with no "balancing" entries or long-outstanding unrepresented payments.

Where the authority has bank balances in excess of £100,000 it has an appropriate investment strategy.

The Investment Strategy is not required.

B. The authority complied with its financial regulations, payments were supported by invoices, all expenditure was approved, and VAT was appropriately accounted for.

Review the procedures in place for acquisition of formal tenders and quotes, ensuring they are in line with the SOs and the FRs which should be based in the latest version.

Standing Orders and Financial Regulations, based on the model documentation, are in place. It is noted that both documents have been reviewed and adopted in July and August 2025, respectively.

Ensure the consistent values are in place for the acquisition of formal tenders between SOs and FRs (frequently different limits are recorded in the two documents).

Testing revealed no issues.

Review the procedures for receipt of invoices, agreement of invoice detail and confirmation of goods/services delivery and approval for payment: ideally, a suitably designed certification stamp should be in place providing for evidence of these checks and payment authorisation.

All invoices appeared to be checked by Clerk and authorised prior to the payment.

Check that there is effective segregation between the writing of cheques or the setting up of online payments, and physical release of payments.

A sample of payments was tested to confirm that the required controls had been applied and that VAT had been accurately recorded. The Council uses online transactions as its primary method of payment. Invoices are supported by a payment list, which is presented alongside the meeting minutes.

Check that VAT reclaims are prepared and submitted in a timely manner in line with the underlying records and in accordance with current HMRC requirements.

VAT claims are up to date.

Where debit/credit cards are in use, establish the total monthly and individual transaction limits and ensure appropriate controls over physical security and usage of cards are in place.

Testing revealed no issues; it has been noted that a debit card is in use.

C. The authority assessed the significant risks to achieving its objectives and reviewed the adequacy of arrangements to manage these.

The Council reviewed its Risk Assessment March 2026.

Ensure that appropriate levels of insurance cover are in place for land, buildings, public, employers and hirers liability, fidelity/employees' liability, business interruption and cyber security.

Insurance cover in place. Fidelity Guarantee cover was adequate at £500,000 to compare to Council reserves.

Ensure that appropriate arrangements are in place for monitoring play areas, open spaces and sports pitches: such reviews should be undertaken by appropriately qualified external inspectors or, if by officers or members, that they have received the appropriate training and accreditation.

Inspections of play areas, open spaces and sport pitches are carried out by appropriately qualified inspectors and reported to the Council.

Ensure that current year budget reports are prepared and submitted to Authority/Committees periodically during the year with appropriate commentary on any significant variances.

Budget monitoring has been carried out regularly throughout the year and reported to the Council, as evidenced in the minutes.

Review the budget performance either during the year or at the financial year-end seeking explanations for any significant or unanticipated variances.

Variance report has been checked and all items have explanation.

Ensure that the Authority has considered the establishment of specific earmarked reserves and, ideally, reviews them annually as part of the budget assessment process.

Earmarked reserves in place. The Council adopted the General Reserve Policy is July 2025. After allowing for earmarked reserves of £65,945 the general reserve stands at £8,294; equating to 15% (less than 3 months) of gross expenditure which is slightly outside generally accepted parameters. The generally accepted recommendation with regard to the appropriate minimum level of a smaller authority's general reserve is that this should be maintained at between three and twelve months of net revenue expenditure.

Ensure that the precept received in the accounts matches the prior year submission form to the relevant authority and the public record of precepted amounts.
